

**OPEN CALL
International
trans-disciplinary laboratory
of exchange and theatrical formation**

When ? From the 31st of July to the 9th of August 2020

Where ? Chiusa di Pesio (CN, Italy)

What ? For this 6th edition, LeMéMe Ensemble invites Thierry Thieu Niang, dancer and choreographer. During the 9 days of the workshop he will explore the dancing movement in the heart of the Italian village of Chiusa di Pesio with its topography and its inhabitants.

Meeting different generations in the village - children, adults, older people as well as disabled people – to invent how being there, in this moment, in this place. through these exchanges we want to question the instantaneous writing of a shared dancing.

In all art forms, resiliency helps us to register in sharing moments, in the bond with others, in the joy of creating a plural and multiple “us”, without regards to class, age or culture.

Stories speak to us, move us, but the reality is we don't have enough of them at a collective level.

What do we have in common and share with the world and with the others?

Who? Everyone is welcome to apply: professional and young actors, dancers, musicians, painters, but also directors, playwrights, students, designers...

*The laboratory will welcome a maximum of 14 people.
4 places are reserved for students (under 25 years old).*
